

OREGON SPINACH

Spinach is native to central and southwestern Asia.

In the 1920s, the Popeye the Sailor man cartoon became a great promoter for spinach in the United States.

NUTRIENTS FOUND IN SPINACH

- ~ Spinach is an excellent source of vitamin A and vitamin K.
- ~ Spinach is also a good source of folate and vitamin C.
- ~ A half cup of cooked spinach is a good source of vitamin B6, riboflavin, calcium, iron, and potassium!

Spinach was first grown over 2,000 years ago in Iran.

As a cool season crop, spinach grows very well in many parts of Oregon.

Spinach is a delicious and healthy vegetable served raw or cooked!

Spinach is often eaten raw in salads, but is also often cooked like collard greens.
