Cauliflower Basics

**Shop and Save**
- Choose cauliflower with a heavy compact curd (head). There may be light green leaves covering part of the curd or the leaves may have been trimmed and the cauliflower wrapped in plastic.
- Avoid heads with brown spots or loose sections of curd that are spread out.
- Fresh cauliflower is generally available year round. It is often cheaper and fresher when harvested locally, usually late summer or fall.
- Frozen cauliflower is also available and may be a better buy at some times of the year.

**Store Well Waste Less**
- Cauliflower can be stored in a plastic bag with holes, a paper bag, or an open container for up to a week in the crisper drawer of the refrigerator.
- Trim away the leaves and wash under cool running water just before use.
- Cauliflower can be frozen. For best quality, blanch and cool; package in airtight containers or bags; date the package and use within a year.

**Cauliflower is very high in vitamin C, which helps the body fight infections.**

**Types of Cauliflower**

**While white is the most common, other colors are available in supermarkets and farmers markets.**

**White** - has creamy white curds and a mild flavor.

**Orange** - has bright orange curds and higher amounts of beta-carotene (vitamin A) than other colors. When cooked, the curds become a brighter and deeper orange color. Has a mild and slightly sweet taste.

**Purple** - has violet-purple curds that turn blue-green when cooked. Has a very mild and light nutty flavor.

**Green** (Romanesco) - is a cross between broccoli and cauliflower. Has bright, light green curds. Some varieties have interesting shapes. Raw tastes much like cauliflower; cooked tastes more like broccoli.
Cooking with Cauliflower

Fix Cauliflower Many Ways

- **Serve raw** in a salad or with low-fat ranch, hummus, or other vegetable dip.
- **Steam** in a basket over boiling water for 3 to 5 minutes or until barely fork tender.
- **Roast** (whole, sliced, or florets) in a 400 to 450 degrees F oven until crisp tender. Stir or turn as needed.
- **Sauté** in a small amount of oil over medium-high heat until lightly browned and crisp tender.
- **Microwave** in a covered dish with water added. Time will depend on amount of cauliflower and the power of the microwave.
- **Boil** in water until just fork tender.

Roasted Cauliflower

**Ingredients:**
1 medium-sized head cauliflower
1 teaspoon oil
2 teaspoons garlic powder
½ teaspoon onion powder
½ teaspoon salt
½ teaspoon pepper
¼ cup grated cheese (try Parmesan or reduced-fat cheddar)

**Directions:**
1. Preheat oven to 400 degrees.
2. Cut cauliflower into florets about equal in size. Toss pieces with oil and place on baking pan in a single layer.
3. Mix spices together and sprinkle evenly over cauliflower. Sprinkle with cheese.
4. Roast for 30 minutes or until cauliflower is tender when pierced with a fork.
5. Refrigerate leftovers within 2 hours.

**Makes:** about 3½ cups

**Prep time:** 5-10 minutes
**Cook time:** 30 minutes

Cauliflower Salad

**Ingredients:**
4 cups mixed cauliflower and broccoli florets (fresh or frozen)
1 cup celery, diced
½ cup onion, diced
¼ cup sweet bell pepper, any color
½ cup lite mayonnaise
½ cup nonfat plain yogurt
1 Tablespoon prepared mustard
½ teaspoon each salt and pepper
¼ teaspoon dried dill weed

**Directions:**
1. Thaw frozen cauliflower and broccoli and drain liquid. If using fresh vegetables, cook first until barely tender.
2. Combine cauliflower, broccoli, celery, onion and bell pepper in serving bowl.
3. In a small bowl, mix mayonnaise, yogurt, mustard, salt, pepper and dill.
4. Stir dressing gently into salad. Chill before serving.
5. Refrigerate leftovers within 2 hours.

**Makes:** about 5 cups

**Prep time:** 20 minutes

When kids help make healthy food, they are more likely to try it. Show kids how to:
- wash veggies under cool running water.
- break off florets.
- sprinkle seasonings and cheese.
- measure and mix ingredients.

A medium-sized head of cauliflower is about 6 inches across, weighs about 2 pounds and makes 4 to 6 servings after trimming off the leaves and stem.
